SUMMARY

Full Stack Developer with over 2 years of experience in building secure, scalable, and efficient web applications. Proficient in PHP, JavaScript, Laravel, Vue.js, and React.js. Skilled in developing RESTful APIs, optimizing backend systems, and designing dynamic dashboards. Strong background in the ed-tech and SaaS industries with a passion for delivering robust, user-focused solutions using Agile methodologies. Experienced in third-party integrations including Stripe, Facebook APIs, and AWS services.

WORK EXPERIENCE

JavaScript Engineer-1

CIKLUM | July 2024 – Present

- Designed and implemented scalable backend systems using Laravel and MySQL, improving response time by 40%.
- Developed scalable APIs and integrated AWS services, resulting in improved system performance.
- Implemented functionality to track link clicks, page visits, file downloads, and other user interactions for analytics purposes.

Software Engineer

Infogen Labs Pvt Ltd | June 2023 – June 2024

- Resolved Stripe webhook failures (50%) and eliminated double billing (20% of users).
- Enhanced the CMS performance by optimizing load times from 4–5 minutes to 10–15 seconds.
- Integrated multi-upload functionality, reducing admin effort and saving up to 30% of operational time.
- Managed Facebook API integrations to automate organic post scheduling with real-time metrics collection.

Web Developer (Intern)

Gadre Infotech Pvt Ltd | July 2022 – August 2022

- Built a responsive school website using HTML, CSS, and JavaScript.
- Ensured mobile-first design and optimized cross-browser compatibility.

PROJECTS

Munetrix – Full Stack Developer | Technologies: PHP, Laravel, Vue.js, MySQL

- Developed custom reporting modules using FusionCharts and Tableau.
- Upgraded Laravel (v9 to v11) and PHP (7.1 to 8.3) to enhance performance and security.
- Improved reporting load time by 45% through backend refactoring.

Screen Insider – Full Stack Developer | Technologies: PHP, MySQL, AWS

- Reduced CMS load time by 70% by optimizing database queries and system architecture.
- Created dynamic movie pages and visual metrics dashboards with click/download tracking.
- Automated organic posting on Facebook with analytics (likes, comments, shares, reach).

Hatch Insight – Backend Optimization | Node.js

- Enhanced backend architecture and integrated third-party tools to support high-availability learning modules.

EDUCATION

Bachelor of Computer Engineering

- Rajendra Mane College of Engineering and Technology (University of Mumbai)
- CGPA: 8.7 (72.77%) | Aug 2019 – May 2023

SKILLS

Languages: JavaScript, Node.js, PHP, Python

Frameworks/Libraries: Laravel, Yii, Express.js, Vue.js, React.js, jQuery, Bootstrap

Frontend: HTML5, CSS3, Ajax

Database: MySQL, PostgreSQL

Tools/Platforms: Git, GitHub, Sourcetree, Jira, vTiger, PHPRunner, SiteGround, FTP, AWS

APIs/Integrations: Stripe Payment Gateway, Facebook Graph API

CERTIFICATIONS

- Stripe Certified Professional Developer – Stripe
- Complete Python Developer – Udemy
- Ultimate MySQL Bootcamp – Udemy
- Node.js: The Complete Guide – Udemy
- Introduction to VueJS – Coursera

ADDITIONAL INFORMATION

Languages: English, Hindi, Marathi

Interests: Playing football, watching movies, traveling
